Re: **Bel Air North Village
Lot 1**

Dear John:

I would like to take a moment to express my sincere appreciation to Advanced Building Systems, Inc., for a project well done. We are very pleased with the multi-tenant building that you constructed for us on Lot 1.

The preconstruction process went smoothly and set a perfect foundation for the actual construction of the building. John Kurtz was a valuable asset in providing detailed budgets which reflected the progress of the construction documents.

ABS construction team Kevin Manmiller (Project Manager) and Mike Smith (Superintendent) provided excellent communication and coordination with subcontractors and our office. The construction team was proactive and recommended solutions with ease. Kevin and Mike performed flawlessly and delivered the project one month ahead of schedule and in compliance with the construction documents.

We look forward to working with Advanced Building Systems on future projects.

Very truly yours,

EP BEL AIR HOLDINGS, LLC
