Re: **Sunoco Logistics**
Miscellaneous Renovation Work
Sinking Springs Facility
Letter of Recommendation

Dear John:

Sunoco Logistics is pleased with the work your company did on this project and honestly recommends your company for full service construction work.

The proposal and bid process went smoothly and set a solid foundation for the different projects. John Kurtz was a valuable asset in providing detailed bids and follow up with the actual work. His thorough communication through out all phases of the project from initial site visit to after construction follow-up let us know we made the right choice of contractor.

The ABS construction team was proactive and recommended solutions which helped guide our decision process.

We thoroughly enjoyed working with the ABS team on this project. Your professionalism and honesty are refreshing and second to none.

We look forward to the next project with ABS.

Very Truly Yours,

Ray Koch

Regional Engineer
Sunoco Pipeline L. P.
